

Dear client,

You have made an appointment for a personal consultation at pro familia. The following hygiene and protection measures must be observed for these counseling contacts:

- Counseling sessions will only take place with a fixed appointment. Please arrive on time for your appointment.
- Please enter the counseling center wearing mouth-nose protection (OP or FFP2 mask).
- After entering, please disinfect your hands. Sufficient disinfectant is available for you.
- We are happy for you to test yourself before the consultation. A self-test is sufficient for this purpose.
- Please observe the distance rule of 1.5 meters.
- If you have symptoms of illness such as cough, cold, fever, no sense of smell and taste, etc., the consultation cannot take place in your presence. In that case, please contact us by phone to either make a new appointment or switch to video or phone consultation.

We care about your health and ours. If you have any questions about hygiene measures, please feel free to call us at 0561 - 76619260.
