

Dear client,

you have made an appointment for a personal consultation at pro familia. The following hygiene and protective measures must be observed for these counseling contacts:

- Counseling sessions will only take place with a fixed appointment. Please arrive on time for your appointment.
- Please enter the counseling center wearing mouth-nose protection (OP or FFP2 mask). The mouth-nose protection must be worn at all times.
- Counselors also wear an FFP2 mask at all times.
- After entering, please disinfect your hands. Sufficient disinfectant is available for you.
- If you are not vaccinated or have not recovered, we would be pleased if you test yourself before the consultation. A self-test is sufficient for this purpose.
- Please keep the distance rule of at least 1.5 meters all the time.
- If you have symptoms of illness such as cough, cold, fever, no sense of smell or taste, etc., you may not enter the counseling center.
- In order to track contacts, we are required to keep your information for three weeks.

We care about your health and ours. If you have any questions about hygiene measures, please feel free to call us at 0561 - 76619260.
